

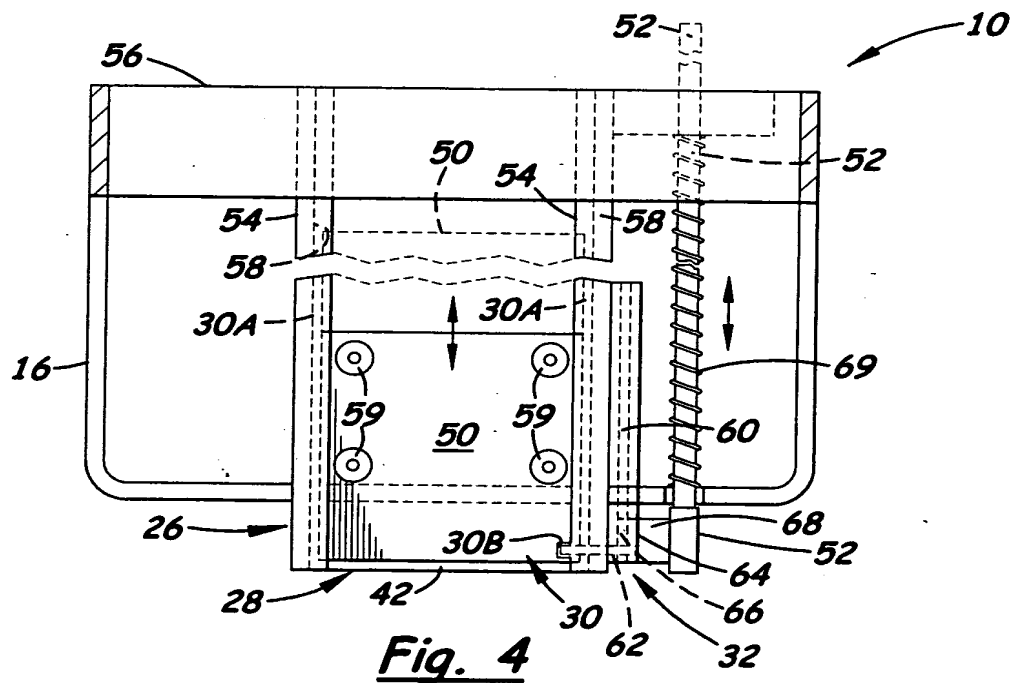

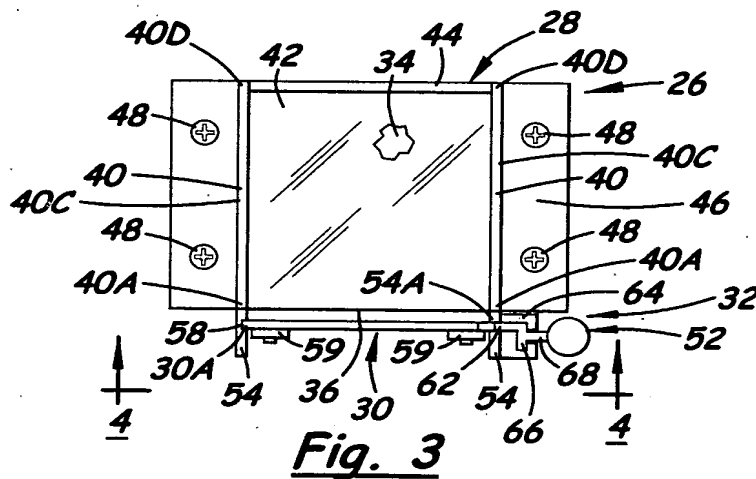

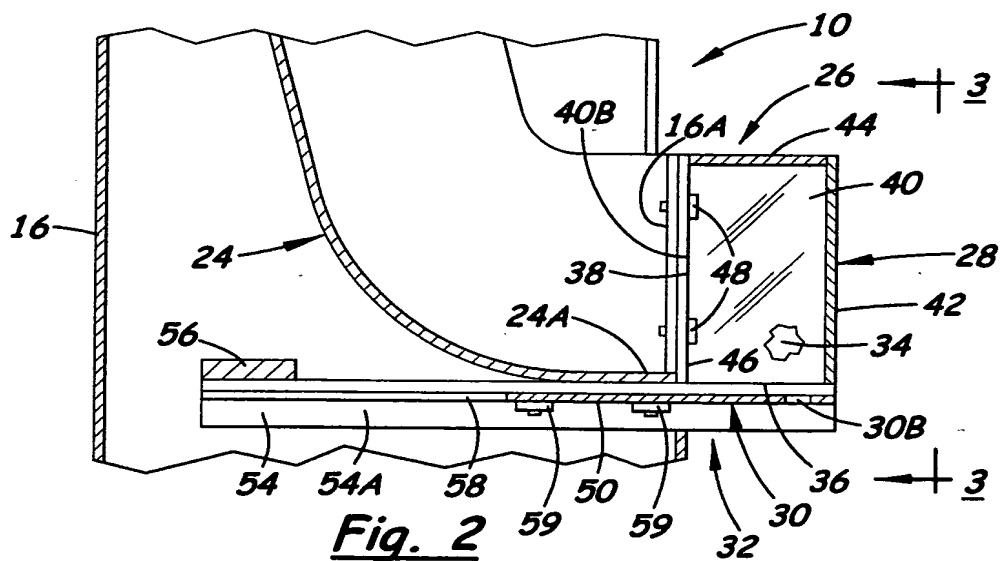

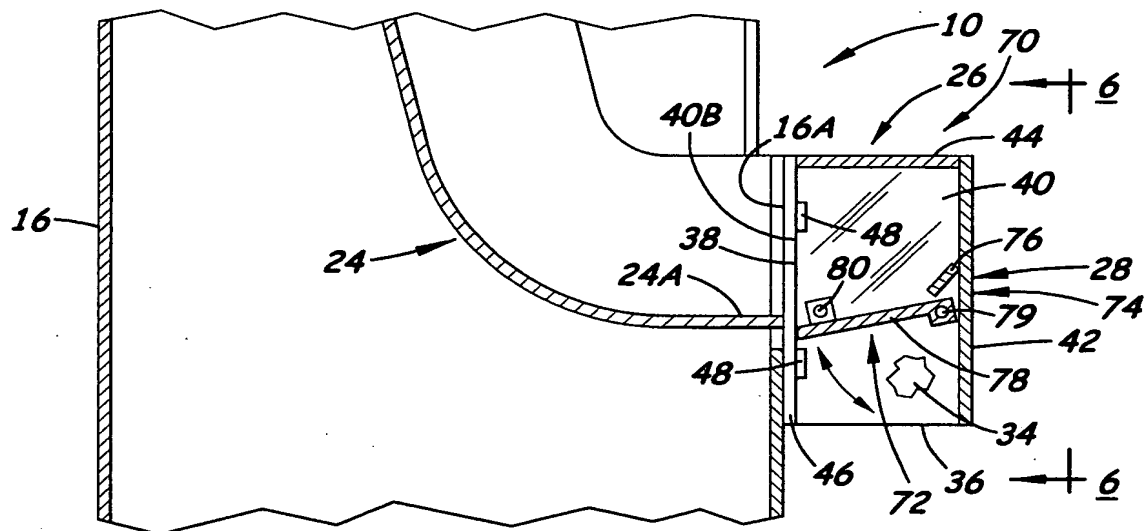

Fig. 1

A schematic diagram of a door assembly. It shows a rectangular door frame 70 enclosing a door panel 40. On the left side of the frame, there are two hinges 76 and 80. A handle 72 is located on the right side of the door panel. A curved component 78 is attached to the bottom hinge area. A dashed line indicates the door's path or position relative to a wall H at the bottom.
